SENT VIA E-MAIL AND POST

Dear Parent

**COVID TEST REMINDER**

I want to thank all learners, parents and staff in supporting KITE College through COVID-19 home testing twice a week, which has meant that since opening in September 2021, there have been no cases.

As you are aware from the media and with winter on its way, COVID-19 infections are on the increase, with Essex having the second highest rate in the country, and these are expected to rise further.

To continue to avoid any outbreaks of COVID-19 in College, can I remind all learners, parents and staff to continue to home test twice weekly, on a Wednesday and Sunday and to report any positive results to College in an effort to keep outbreaks at zero throughout the winter period.

Spare testing kits are available at College for students to take home if needed; please contact us if you require any kits or have any questions.

Yours sincerely

*Steve Badder*
